

spectrUM WEATHER BUS

TEACHERS, BOOK A RIDE ON THE WEATHER BUS

Field trip transportation to and from the spectrum Discovery Area is **FREE** every Wednesday, and loads of fun!

Starting September 24, students will ride the Weather Bus with a spectrUM Educator and a KECI Meteorologist while engaging in weather activities and discussions on meteorological communication. The Weather Bus is available to all Missoula County Schools.

Call 243-4828 to book a ride. Field trip admission is \$3 per child.

Once at spectrUM, students will spend 60 minutes exploring exhibits and activities designed to meet science standards for Elementary, Middle, and High School students.

- **Elementary Students** will engage in cloud exploration, cloud differences, and how they are formed.
- **Middle School Students** will learn about States of Matter and Water Cycle, and how they interact with weather.
- **High School Students** will focus on “The Science of Storms” while learning how heat transfer causes changes in weather, how this is altered by the topography of the land, and the transfer of energy via lightning.

Teachers should allow one hour and 40 minutes for this program.

This project has been made possible by a number of individual and corporate partners. spectrUM would like to thank the community for coming together to make this dream happen.
